A.L.I.S. Tracking

Introduction

The A.L.I.S. Tracking Web site is an extension of the Arizona State Legislature website. A.L.I.S. Tracking has similar menu items as ALIS Online and will retrieve the same document information. Users who track large numbers of bills will find it more convenient to follow legislation by using A.L.I.S. Tracking. In particular, the personal progress feature allows the user to maintain up to five separate lists of bills. A bill progress report can then be generated against any list.

The A.L.I.S. Tracking Web site was created by application developers at the Computer Services Division of the Arizona Legislative Council. This manual will assist you in using the program most efficiently.

The A.L.I.S. Tracking Web site can be found at the following url: <http://alistrack.azleg.state.az.us/>.
